- ensure that the Incident, Injury, Trauma and Illness Record is completed as soon as is practicable and within 24 hours of the occurrence
- complete and submit a serious incident report to the Sparkways Compliance Desk, who will complete the required Department notifications

When a child develops symptoms of illness while at the service, all staff will:

- observing the symptoms of children's illnesses and injuries and systematically recording and sharing this information with families (and medical professionals where required)
- ensure that the nominated supervisor, or person in day-to-day care of the service, contacts the parents/guardians or authorised emergency contact for the child
- request that the child is collected from the service if the child is not well enough to participate in the program

- ensure that they separate the child from the group and have a staff member remain with the child until the child recovers, a parent/guardian arrives or another responsible person takes charge
- call an ambulance (*refer to definition of medical emergency*) if a child appears very unwell or has a serious injury that needs urgent medical attention
- ensure that the child is returned to the care of the parent/guardian or authorised emergency contact person as soon as is practicable
- ensure that, where medication, medical or dental treatment is obtained, the parents/guardians are notified as soon as is practicable and within 24 hours, and are provided with details of the illness and subsequent treatment administered to the child
- ensure that the approved provider is notified of the incident
- ensure that the Incident, Injury, Trauma and Illness Record is completed as soon as is practicable and within 24 hours of the occurrence

Details that must be entered in the Incident, Injury, Trauma and Illness Record include the following:

- the name and age of the child
- the circumstances leading to the incident, injury or trauma, or relevant circumstances surrounding the child becoming ill (including any symptoms)
- the time and date the incident occurred, the injury was received or the child was subjected to the trauma, or the apparent onset of the illness
- the action taken by the service, including any medication administered, first aid provided or medical personnel contacted
- details of any person who witnessed the incident, injury or trauma, or the apparent onset of illness
- the name of any person the service notified, or attempted to notify, of any incident, injury, trauma or illness that a child suffered while being educated and cared for by the service, and the time and date of the notifications/attempted notifications
- the name and signature of the person making an entry in the record, and the time and date that the entry was made
- signature of a parent/guardian to verify that they have been informed of the occurrence

All information will be included in the Incident, Injury, Trauma and Illness Record as soon as is practicable, but not later than 24 hours after the incident, injury or trauma, or the onset of the illness.

BACKGROUND AND LEGISLATION

BACKGROUND

People responsible for managing early childhood services and caring for children have a duty of care towards those children. All service staff have a responsibility and a duty of care to act to prevent accidents and emergencies at the service.

An approved service must have policies and procedures in place in the event that a child is injured, becomes ill or suffers trauma. These procedures should be followed and must include the requirement that a parent/guardian be notified in the event of an incident, injury, illness or trauma relating to their child as soon as possible and within 24 hours of the occurrence.

The *National Regulations* require an accurate Incident, Injury, Trauma and Illness Record to be kept and stored confidentially until the child is 25 years old (*Regulation 183(2)*).

Under the national legislation, each service must ensure that an entry is recorded in the Incident, Injury, Trauma and Illness Record for the following occurrences:

- an incident in relation to a child, an injury received by a child or trauma to which a child has been subjected
- an illness that becomes apparent

Medical emergencies may include serious health issues such as asthma, anaphylaxis, diabetes, fractures, choking and seizures. Such emergencies generally involve only one child; however, they can affect everyone in the children's service. In some cases, it will be appropriate to refer to specific policies for guidance, such as the *Dealing with Medical Conditions Policy, Asthma Policy, Anaphylaxis and Allergic Reactions Policy, Diabetes Policy and Epilepsy and Seizures Policy*.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Australian Standards AS3745–2002, Emergency control procedures for buildings, structures and workplaces

DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the Sparkways policy catalogue.

Emergency services: Includes ambulance, fire brigade, police and state emergency services.

First aid: Is the immediate treatment or care given to a person suffering from an injury or illness until more advanced care is provided or the person recovers. First aid training should be delivered by approved first aid providers, and a list is published on the ACECQA website: acecqa.gov.

Hazard: A source or situation with a potential for harm in terms of human injury or ill health, damage to property, damage to the environment or a combination of these.

Illness: Any sickness and/or associated symptoms that affect the child's normal participation in the program at the service.

Incident: Any unplanned event resulting in or having potential for injury, ill health, damage or other loss.

Incident, Injury, Trauma and Illness Record: Contains details of any incident, injury, trauma or illness that occurs while the child is being educated and cared for by the service. The Approved Provider must ensure an Injury, Trauma and Illness Record is kept in accordance with *Regulation 87 of the Education and Care Services National Regulations 2011* and kept for the period of time specified in *Regulation 183*. A sample is available on the ACECQA website: www.acecqa.gov.au (search 'Sample forms and templates').

Infection: The invasion and multiplication of micro-organisms in bodily tissue.

Infestation: The lodgement, development and reproduction of arthropods (such as head lice), either on the surface of the body of humans or animals, or in clothing.

Injury: Any physical damage to the body caused by violence or an incident.

Medication: Medicine within the meaning of the Therapeutic Goods Act 1989 of the Commonwealth. Medicine includes prescription, over-the-counter and complementary medicines. All therapeutic goods in Australia are listed on the Australian Register of Therapeutic Goods, available on the Therapeutic Goods Administration website tga.gov.au

Medical management plan: A document that has been prepared and signed by a doctor that describes symptoms, causes, clear instructions on action and treatment for the child's specific medical condition, and includes the child's name and a photograph of the child. An example of this is the Australasian Society of Clinical Immunology and Allergy (ASCIA) action plan for anaphylaxis.

Medical attention: Includes a visit to a registered medical practitioner or attendance at a hospital.

Medical emergency: An injury or illness that is acute and poses an immediate risk to a person's life or long-term health.

Minor incident: An incident that results in an injury that is small and does not require medical attention.

Trauma: An emotional wound or shock that often has long-lasting effects or any physical damage to the body caused by violence or an incident.

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- regularly seek feedback from everyone affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- review and analyse information gathered from the Incident, Injury, Trauma and Illness Record and staff first aid records regarding incidents at the service
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required

- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (*Regulation 172 (2)*).
